AEC AUTHORIZING LEGISLATION

UNIVERSITY OF MICHIGAN
JAN 2 8 1959
MAIN READING ROOM

INDEX TO

HEARINGS

BEFORE THE

SUBCOMMITTEE ON LEGISLATION

OF THE

JOINT COMMITTEE ON ATOMIC ENERGY

CONGRESS OF THE UNITED STATES

EIGHTY-FIFTH CONGRESS

SECOND SESSION

ON

AEC AUTHORIZING LEGISLATION

HELD ON MAY 14, 19, 27, JUNE 4, 9, 10, AND 11, 1958

Printed for the use of the Joint Committee on Atomic Energy

UNITED STATES
GOVERNMENT PRINTING OFFICE
33849 WASHINGTON : 1959

JOINT COMMITTEE ON ATOMIC ENERGY

CARL T. DURHAM, North Carolina, *Chairman*
CLINTON P. ANDERSON, New Mexico, *Vice Chairman*

CHET HOLIFIELD, California	RICHARD B. RUSSELL, Georgia
MELVIN PRICE, Illinois	JOHN O. PASTORE, Rhode Island
PAUL J. KILDAY, Texas	ALBERT GORE, Tennessee
WAYNE N. ASPINALL, Colorado	HENRY M. JACKSON, Washington
JAMES E. VAN ZANDT, Pennsylvania	BOURKE B. HICKENLOOPER, Iowa
JAMES T. PATTERSON, Connecticut	WILLIAM F. KNOWLAND, California
THOMAS A. JENKINS, Ohio	JOHN W. BRICKER, Ohio
CRAIG HOSMER, California	HENRY DWORSHAK, Idaho

JAMES T. RAMEY, *Executive Director*

SUBCOMMITTEE ON LEGISLATION

CHET HOLIFIELD, California, *Chairman*

CARL T. DURHAM, North Carolina	ALBERT GORE, Tennessee
PAUL J. KILDAY, Texas	BOURKE B. HICKENLOOPER, Iowa
JAMES E. VAN ZANDT, Pennsylvania	HENRY DWORSHAK, Idaho

DAVID R. TOLL, *Staff Counsel*

DEPOSITED BY THE
UNITED STATES OF AMERICA

INDEX TO 1958 HEARINGS ON ATOMIC ENERGY COMMISSION AUTHORIZING LEGISLATION [1]

Hearing dates: Page
Wednesday, May 14, 1958 1
Monday, May 19, 1958 69
Tuesday, May 27, 1958 159
Wednesday, June 4, 1958 205
Monday, June 9, 1958 293
Tuesday, June 10, 1958 321
Wednesday, June 11, 1958 357

A

ACF Industries 258
Agricultural Experiment Station, United States Department of Agriculture 132
Aircraft nuclear propulsion progress 425
Allis-Chalmers Manufacturing Co 74
American Federation of Labor-Congress of Industrial Organizations 370–374
Ames, Iowa, project 107, 114, 120
Anderson, Clinton P., address at fourth annual meeting of Nuclear Writers Association 428–433
Anderson, Roland A., statement by 214–294, 327–337, 346–355
Anthony, Dave, statement by 72–158
Anthracite coal, United States consumption 1957 158
Appropriations legislation 382–384, 393–396, 389–390
Arco, Idaho 84, 89, 93, 102, 283
Argonne National Laboratory 29, 82, 101, 108–109, 125, 155–156, 160, 172, 182
Chemistry laboratory 115–116
Armed Forces special weapons project 98
Army package power reactor 103
Associated Universities, Inc 173
Atomic Energy Act of 1954 4–8, 10–11, 12, 396–414
Atomic Energy Commission 72, 161, 322–337, 346–355, 358, 365, 370–371, 384–388
Accelerator improvements, University of California Radiation Laboratory 113–114, 409
Accelerators 117, 118, 122, 128–129
Action for request for authorization of physical research projects, fiscal year 1959 111
Active authorized projects on which revised cost estimates have exceeded the authorization limitations after the project has been started 9
Amendments to existing construction projects 24
Analysis of unexpended balances projected for June 30, 1958 14
Appropriations 18–22
Argonne National Laboratory 115
Fuel technology center addition 407–408
Army package power reactor 406
Army reactor experimental area 405–406
Base construction, Eniwetok Proving Ground 400
Base construction, Nevada test site 400–401
Bevatron improvements, University of California Radiation Laboratory 29
Biology and medicine projects 29
Boiling water reactor 406–407

[1] The Joint Committee on Atomic Energy wishes to acknowledge the assistance of Julius W. Hobson, of the Economics Division, Legislative Reference Service, Library of Congress, in the preparation of this index.

Atomic Energy Commission—Continued Page
Central Research Laboratory addition, Oak Ridge, Tenn. 113
Chemistry building addition, University of California Radiation Laboratory 114, 119
Chemistry hot laboratory, Argonne National Laboratory 115–116
Civilian power reactor program 235, 288–292
Community project 30
Comparison of items submitted to the Bureau of the Budget with items submitted to Congress (revised May 13, 1958) 14–15
Component fabrication plant, Hanford, Wash 399
Cooperative arrangements 32–35
Cooperative power reactor 413
C. P. 5 reactor improvements 119
Current obligations on projects for which authorization was rescinded by Public Law 85–162 11
Cyclotron 118–119
Economics at Hanford 417–418
Employee transportation subsidy 31
Estimated costs shown in authorizations enacted pursuant to section 261 of the Atomic Energy Act of 1954 4–8
Expansion of stable isotopes production capacity, Oak Ridge, Tenn. 112, 121
Fabrication plant, Oak Ridge, Tenn. 399
Fast reactor safety station, Nevada test site 405
Fernald, Ohio, plant 155
Fuel technology center addition, Argonne National Laboratory, Ill. 407–408
Gamma process development irradiation 411–412
Gas-cooled power reactors 408–409, 413–414
Gaseous diffusion plants, Oak Ridge, Paducah, and Portsmouth 398
General Advisory Committee 123
General plant projects 30, 111–112, 412–413
General plant projects under the physical research program fiscal year 1958 152
General provisions 31
Heavy water component test reactor 407
Heavy water power reactor 28
High-energy physics facility, Columbia University 120–121
High-explosive development plant, Livermore, Calif. 403
High-flux reactor, Brookhaven National Laboratory 116, 121–122
Hot cells 406
H. R. 12458, 85th Congress, 2d session (appropriations) 19
H. R. 12459, 85th Congress, 2d session (appropriations) 19–22
H. R. 12457, 85th Congress, 2d session (appropriations) 18
Installations for radioactive fallout research 410
International assistance 29
International Atomic Energy Agency research reactor and Laboratory 411
Justification for projects submitted in amended budget 116–122
Justification for projects submitted in base budget 111
Laboratory Building TA-33, Los Alamos, N. Mex. 401–402
Large-scale production reactor 28–29
Letter to Hon. Carl T. Durham 212
Letters to Joint Committee on Atomic Energy 15, 16, 17, 18, 22, 35–36, 47–49, 63–66, 110, 155, 158, 193, 266–267, 388, 433, 435
Letter to Pennsylvania State University 128–129
Lineal accelerating tester, Livermore, Calif. 402–403
Metals and ceramics research building, Oak Ridge, Tenn. 112–113
Metals process development plant, Ames Laboratory 114–115, 120
Naval reactor progress 425
New construction projects 25
New principal office 413
New production reactor—Summary of selected cases 422
New waste storage installations, Arco, Idaho 398
Oak Ridge high-energy accelerator 118
Operating expenses and allowances 272–273
Organic moderated reactor experiment 406–407
Particle accelerator program—Cambridge accelerator 117, 122
Permanent research buildings 117

Atomic Energy Commission—Continued Page
Phermex installation, Los Alamos, N. Mex 401
Physical research projects 29
Physics building, Brookhaven National Laboratory 116–117
Pilot plant for fabrication of new fuel elements 397–398
Plant modification for processing of nonproduction spent fuels 89
Plant modifications 397
Plutonium 416
Processing pilot plant, Oak Ridge National Laboratory, Tenn 404
Project Sherwood plant 69–70, 409
Projects authorized pursuant to section 261 of the Atomic Energy Act of 1954 which have been completed 10
Projects undertaken prior to the Atomic Energy Act of 1954 11
Projects which had not been started as of March 31, 1958 12–13
Projects which have been abandoned, substituted for, or superseded by revised authorizations 12
Reactor development projects 26–27, 235
Reactor for the production of special nuclear materials 414–421
Reactor improvements, Argonne National Laboratory, Illinois 409–410
Reactor safety 416
Regional nuclear training center, Puerto Rico 410–411
Research and engineering reactor, Argonne National Laboratory 119
Research reactor, Ames Laboratory 114, 120
School aid, Richland, Wash 150
School storage building, Hanford, Wash 412
Special nuclear materials projects 25
Special processing plant, Mound Laboratory, Ohio 399–400
Special-purpose test installation 404–405
Starting dates of projects proposed authorization bill for fiscal year 1959 157–158
Steam reactor—Budget estimate 391
Storage and handling building, Livermore, Calif 98, 403–404
Storage site modifications 95, 400
Technical reviews at MURA proposal 193–198
Test area development, Nevada test site 401
Test assembly building 403
Test installations, Sandia Base, N. Mex 402
Training, education, and information projects 30
Weapons production and development plants 398–399
Weapons projects 25–26
Atomic power development current problems 423–424
Atomic reactors 102

B

Berkeley Radiation Laboratory 70–71
Bettis Laboratory 258
Big Ten universities 173
Bituminous coal, AEC procurement fiscal year, 1958 158
Bloch, E. J., statement by 72–158
Boiling reactor experiment 259–260, 279
Bonneville Power Administration 298
Bradley, James P., statement by 39–67
Brazil 136, 367
Brookhaven cosmotron 160
Bureau of the Budget 39–67, 323
Burrows, Don, statement by 23–39, 72–158, 214–294, 327–337, 346–355
Busby, Jack K., statement by 337–346

C

Calden Hall plant 353
California Institute of Technology 160
California, University of 70–71
California Radiation Laboratory, University of 82, 105
Canada 136
Carolina-Virginia group 332
Chamber of Commerce of the United States, letter to JCAE 392
Chicago, University of 173, 199
Chugach 330–331

Page
Civilian power reactor program 279, 427–428
Columbia University 132
Convertible type reactor 315
Cornell University 160
Countries with atomic energy organizations established by administrative action 134
Countries with atomic energy organizations established by legislative action 133
Crane, Horace R., statement by 162–163, 166–198
Cyclotron 107

D

Davis, W. Kenneth, statement by 23–39, 72–158, 214–294, 327–337, 346–355
Defense Department 102, 269
Derry, John A., statement by 72–158, 384–388
Descartes, S. L., statement by 363–370
DEW line 275
District of Columbia Transit Co 154
Dresden power reactor 358
Dunham, C. L., statement by 72–158
Durham, Carl T.:
Letter to AEC 213–214
Speech before atomic energy management conference of atomic industrial forum, National Industrial Conference Board 423–428

E

Edison Electric Institute:
Power reactors for new undertakings 285–286
Very large scale reactor 285–286
Elk River project 260
Engineering test reactor 238, 358
Euratom:
Generating units and load factors in Euratom countries 218–219, 220, 221–222
Thermal unit sizes in Euratom countries 219–220
European Atomic Community (Euratom) 217, 218–222, 254, 314
Evins, Joe L., letter to Joint Committee on Atomic Energy 326
Experimental boling water reactor 259, 260, 276, 279
Experimental breeder reactor 257, 276, 282–283

F

Fast breeder reactor 275
Federal Power Commission, letter to AEC 422–423
Fernald feed materials plant 90
Fields, K. E 23–39, 72–61
Floberg, John F., statement by 214–294, 327–337
Florida East Central Nuclear Group 245
Florida project 258, 332–333, 351
Foster Wheeler Corp 330
Freeman, Raymond C., statement by 357–363

G

General Advisory Committee 79–80
General Advisory Committee, letter to AEC 81–82
General Accounting Office 205, 321
General Electric Corp 155, 238, 295–315, 357–363
General Electric Corp., report 318
General Electric test reactor 358, 361
General Electric Vallecitor Atomic Laboratory 358
General Motors plant 91
General Nuclear Engineering Co., Puerto Rico, power reactor project 363
Geneva Conference 105
Government subsidy 328
Graham, John S 14–294, 327–337, 346–355
Graphite 306

H

Page
Hall, John A., statement by 72–158
Homogeneous reactor experiment 93, 84, 89, 277, 296, 342, 310, 317
Harvard, MIT accelerator 75, 76, 77
Harvard University 71–72
Heavy water 268, 327
Heavy water moderated power reactor 258, 273

I

Illinois, University of 160, 173
Indian Government 136
Indiana University 173
Industrial Test Reactors, Inc 358
International Atomic Energy Agency 132, 254
  American personnel 143
  Salaried personnel 139–142
  Staff 138
International Union of Electrical Radio and Machine Workers, AFL–CIO 370–374
Iowa State College 173

J

Johnson, W. E., statement by 295–315, 337–346
Joint Committee on Atomic Energy:
  Desirability of fixed-income contracts 209
  Indemnity coverage for reactors abroad 210
  Letters to AEC 22, 35, 46–47, 109, 210–211, 213–214, 266, 435
  Manpower shortage 209–210
  Need for well-defined policy 209
  Reactor markets abroad 210
  Reactor projects list 432–433
  Seminar with representatives of equipment manufacturers 209–210
  Subsidies 209
  Summary of seminar with reactor experts 208–209
  Technical information program 210
  Test equipment 210
Jones, J. A., organization 238

K

Kaiser Engineers 258
Kefauver, Estes, letter to Bureau of the Budget 325
Kefauver, Estes, statement by 322–326
Kansas, University of 173

L

Latin America 131
Libby, W. F., statement by 23–39, 214–294, 327–337, 346–355
Linear accelerator testor 98
Liquid metal fueled reactor 284–285
Livermore Radiation Laboratory, University of California 70, 98, 99, 104
Los Alamos Scientific Laboratory 96, 97, 101, 104

M

McCarthy, Frank, statement by 72–158, 214–294, 327–337, 346–355
McDaniel, P. W., statement 72–158
Madison, Wis 199, 203
Martin Co., letter to JCAE 390
Massachusetts Institute of Technology 71–72
Materials testing reactor 238, 240, 358
Merriam, Robert E., statement by 39–67
Mettalurgical and ceramic research laboratory 326
Metals process development plant at Ames Iowa 90
Michigan Chemical Corp 352
  Letters to JCAE 347–349
Michigan State University 173
Michigan, University of 173

Page
Midwestern Universities Research Association 118, 161, 162–165, 166–198, 200, 201
Competence and size of staff 196–197
Member universities 200
Permanent staff 174–175
Proposed accelerator 194–195
Report on site to the board of directors 176–178
University staff members on leave to 174
Value of proposed accelerator 195–196
Minnesota, University of 173
Morris, Delmar 214–294, 327–337, 346–355
Multibillion-volt-accelerator 160

N

National reactor testing station in Idaho 358–377
Nautilus 231–232
Naval reactor branch 258
Naval reactor progress 425
Naval research 161
North Carolina 238
Northern States 332
Northwestern University 173
Notre Dame, University of 173, 184

O

Oak Ridge National Laboratory 104, 153, 324–326, 341–343
Oak Ridge reactor 274
Oak Ridge, Tenn 90–100, 242, 276–278, 330, 345
Ohio State University 173
Olson, L., statement by 214–294, 327–337, 346–355
Organic material reactor experiment 260, 278–279
Outer space propulsion 124

P

Paducah, Ky 90, 91
Patents 426
Pattern for atomic power 428–432
Pennsylvania advance reactor project inventions prior to January 1, 1958 344–345
Pennsylvania Power & Light Co 273, 327, 333–335, 345
Pennsylvania State University 128
Pittman, Frank K., statement by 72–158
Pittsburgh, Pa 341
Pleasanton, Calif 358
Plutonium 297–298, 302–304, 316–317, 424
Portsmouth 90
Power Reactor Development Corp 101, 321, 357, 370–373, 388
Power Reactor Development Corp., statement submitted by 374–377
Power reactor fuels 88
Power reactors 256–259
Princeton University accelerator 70–71, 72, 75–77, 104
Proxmire, William, statement by 198–200
Public Law 85–162:
Amendments proposed 393–396
Authorizing legislation 378–382
Legislative history of section 111 (a) (2) 378
Power Reactor Development Corp. project, legislative history 389–390
Puerto Rico:
Nuclear training center 129, 130
Power reactor proposal 369
University of 132
Water resources authority 363–370
Water resources authority, letter to Joint Committee on Atomic Energy 363–364
Purdue University 173

R

Page
Radio Corporation of America 74
Radioisotopes 130
Reactors 295–296, 303–307
Reactors. (*See* under names of various reactors.)
Republic of Costa Rica 367
Republic of Panama 367
Reuss, Henry S., statement by 203
Rollefson, Ragnar, statement by 166–198, 200–203

S

San Jose, Calif 357
Savannah River experiment 88, 89, 93, 275, 282
Schaub, William F., statement by 39–67
Schuldt, Frederick C., statement by 39–67
Sherwood project 74–75, 82
Sigal, Benjamin C., statement by 370–374
South Carolina 238
Soviet Union 136, 162, 164
Staebler, U. M., statement by 214–294, 327–337
Stanford University 118, 160–161
State University of Iowa 173
Suburban Transit Co 154
Symon, Keith R 162–163
Symon, Keith R., statement by 166–198, 200–203

T

Tammaro, A., statement by 214–294, 327–337, 346–355
Thermonuclear reaction 104
Turbogenerators 260

U

United Kingdom 218
United Nations 138
United States Department of Agriculture Experiment Station 132
Uranium 134, 274–275, 372
Uranium Aluminum fuel 92–93

V

Vance, Harold S., statement by 214–294, 327–337, 315–319, 346–355
Vienna, Austria 136

W

Washington University of St. Louis 173
Weaver, Charles, statement by 337–346
Westinghouse Electric Corp 273, 321, 327, 336–346
  Letter to AEC 343
Wiley, Alexander, statement by 162–165
Williams, J. H., statement by 72–158
Wisconsin, University of 173

Z

Zeta 74
Zinn, Walter L.:
  Excerpts from prepared statement 286
  Statement by 363–370
Zirconium 307–311, 313
  Clad fuel 101

○
